

Here and here only - write what you really think of Ben

---

hes a loathsome offensive brute, yet i cant look away. a sexually depraved miscreant who is seeking only to gratify his basest and most immediate urges. His struggle is mans struggle. He lifts my spirit. He transcends time & space, he sickens me. I love him

I think hes so honourable to be doing ~~then~~ diligently the necessary work ~~is~~ with first nations Australians in remote community - so admirable.

I'm really uncomfortable with his face watching me poop while I'm sitting. It's intrusive.

It's cool that he rides a motorbike. Better for the environment & so cool.

I'm so proud he pushed 2 children out of his vagina

I think all the work hes doing against osama bin laden is admirable

The way he tackled the gunman and saved numerous lives blows my mind.

I think I saw them in an anime once? But their eyes were purple. Huge fan ♡♡

Is this my uber driver? Great music. weird chats. 4 stars. 😊

Ben is a feeling. It's something you can't define without first breathing ~~its~~ air. And when its gone only some will truly acknowledge it ever existed.

I think myself a God entrapped by sinful flesh  
I really appreciated the time he used his powers of necromancy to banish the eldritch horrors that one time.

The Spongicake incident, wow.

I was at the Salem trials. I think they're a witch... they murdered me.  
I think they may not exist; there is no Ben,  
only difference  
Good guy. We had a ball back in 'nam

I've seen him in my dreams - what does this mean? what does this mean??

I think they should draw the mushroom pokemon with a bunch  
of different mushroom versions

Do you think he would take a moment to talk about our Lord  
and saviour Jesus Christ? I think he would. I think he has.

Did people use this pen before or after wiping?  
Would anyone be particularly bothered if I  
enforced some sanitising regulations in this space?

Oh, ah. I've been licking the pen...

I have explosive diarrhoea right now & it's nice of Ben to be  
here with me during this hard time (my asshole is being violated)  
I too was once called Ben... before I was born. Until my vulva was sighted  
he looks suspiciously similar to someone who ~~was~~ was in a photo  
I saw on the social media but his @ never worked so can't be sure  
isn't he in the Epstein files?

They're gay in a non sexual way exclusively

I mistake them for Rapunzel sometimes.

I enjoy our interactions

Roses are red, violets are blue, I know this guy, why it's Ben.

simultaneously gives off BD and SD energy

Also ASD. HO

ben dosent workout

I look forward to meeting him / them / s / him at the next mixer event.  
Ryan Gosling will play him in the film adaptation of his life

mum say beenny has many burn holes and  
milly now need proff

I saw them on the news... such a shame what happened

~~concur~~ concur, considering the incident I am unsure what would happen to Ben with friends? Though I hope that the suit on a national level will help and we will be able to do better in the future - hopefully near future.

I've seen that at Ben's house there's a photo of Ben toileting - it's on their family fridge.

think ben should find a new place to go toilet because on their family fridge is not optimal - probably

I heard Ben considers the sun their nemesis. (derogatory)

☞ I wash my hands before I touch the pen, should I also wash them after? In case others have only been washing hands after? I feel this way about the tap. If I turn the tap on with dirty hands, clean my hands, but then touch the tap that my hands dirty, do I wash them again? How do I turn the tap off, without dirtying my hands on the tap?

I'm not OCD or autistic.

I also think about this re the tap, esp at work with my kindys

Ben and I draw in arm wrestling. Should we rematch?

I think you should.

Ben skips with stiff, straight arms & torso - but... why?

Did you know Ben's hair is long? I know about it.

Ben didn't lie about being a duke even when Nike, Alma & Naomi did.

I believe only the frog. Is Ben a frog? Is Ben the frog? I don't believe.

I admire their tenaciousity  
they told me they only bathed once a week

I wonder why Ben is so weird?

I gave Ben my meat.

I did too. He was worried it was too cold.

I think we should raise Ben's Sunday. Being on their ~~the~~ Tuesday is already washed.

Do you ever think about Ben's eyes - their translucent brown green?

Their eyes is all I think about. Day and night.

I hear their eyes, not a thought, the eyes are the window to the soul, and Ben has - nevermind. Ben is actually a goblin changing

I wonder if I met Ben in the labyrinth of my mind.

Hey, quick question. I've been wondering... who is Ben?

To think is to locate oneself in the mind and my mind is an awful, dreadful place to be... what was the assignment again?

I'd like to chat with Ben about the weather. Shoot the gun together. I heard that in twin peaks, it was actually him that killed Laura Palmer but the truth was too real for TV. I miss David Lynch though.

Is Ben the real Ben chicken? Like the ibis?

Hell took a body and discovered God  
Ben took a shit here and it smelled AWFUL

Ben took a shit at work and it smelled PLEASANT

Is that a moustache on Ben's face? or is that a caterpillar named Avery?

Not to be controversial or anything but I really enjoy Ben's company. I like him.

Ben appears as a goblin in my dreams  
what does it mean? *abu bu*

*brain tells* It is not for mortal minds to concern themselves with. Dreams are lies, you  
you, space them out a moment of thought.

I knew Ben before you knew Ben. In a sense I was him first.

Ben was a chipmunk, all furry and mischievous, but now they are an adult  
size chipmunk... furry and mischievous.

Well, Ben didn't answer in a group messenger - if he is  
into a goodbye meeting, so let's do the business  
here. GOODBYE Benjamin Kelebir & fam. See you  
SOON. ♡ B&F = THE SLOVAKS... and we forgive you. lol

Bucking Ben is at a bucking bucks just bucking and benning with other bucks or ben's.  
he thinks he's the best but why  
maybe because he's the best.

So... re Ben's Tuesdays... once considered crashable then uncrashable...  
is it because Ben values Tuesdays or rest or crashing or work?
